## June is Stroke Month

Stroke is the leading cause of acquired long-term adult disability in Canada. June has been nationally designated as Stroke Month to mark the significance of stroke and help people better understand how to prevent and recognize stroke.

The Alberta Health Services Stroke Program in the Edmonton area is gearing up once again for our annual Stroke Awareness presentations.

We are offering free one-hour public education sessions free of charge to any interested groups, businesses or organizations during the month of June. These presentations are made available to reach as many people as possible and get the word out on stroke awareness, risk factors and prevention.

To book a presentation, please call  
780-407-3041.
